## Who we are

Decolux is a Premium PVC Laminate Brand introduced by VARDHMAN PVC PROFILES PVT LTD., which is a 20 years old company having various brands in the field of interior decoration. Vardhman is a renowned company having millions of satisfied customers. We Focus on the latest global trends of new products that are of superior quality to manufacture and in wide range of colours and designs. Our ability to continuous innovate in patterns and colours are appreciated by architects, builders fabricators, carpenters and end users. Decolux is a symbol of style and class, these are eco-friendly laminates are manufactured by using advanced technology. We produce wide range of laminates and our continuous product development and willingness to stretch the boundaries of designs also enable us to meet any special customised requirements.

### Our Vision

We believe in doing business with team work and with kindness, carefully selecting suppliers and business partners who align to our vision of doing good. We are driven by our purpose of revitalizing lives and improving physical and mental well being, while leaving a better world for the generations to come.

### Our Mission

Keeping in pace with time and having a consistent commitment towards ever growing demands in the market for PVC Laminates. "Decolux strive for excellence in customer care and satisfaction", by providing cost effective quality products at competitive price and timely delivery.

### Quality

Decolux adheres to a strict policy of high quality control, quality checks at various stages for raw materials, on line production and finished goods, under the guidance of skilled professionals. Bringing the perfectly finished product at your door step.

**1** Brings smooth and seamless edges to the furniture.

**2** Avoids substandard look of the interior with clear edges.

**3** No joints in the laminates gives a superior looks.

**4** Modern concept of interior

### Note

Decolux warrants that all its products are free from manufacturing defects and perfectly ideal for in normal conditions. In case of any claim, the liability of company is only limited to the cost of the product only. There may be color variations from batch to batch. The sample swatches in the catalogue represents the design, Colours and niches. They do not represent the actual sheet.

## Technical Specifications

**Thickness :** 1.2 mm (+10%)

**Sheet Size :** 8'x4' Feet (2440mm x 1220mm)

**Range :** Decolux PVC laminates available in wide range of colors and design. Customized size and shades can be developed on request and available of color.

**Adhesive :** For Better results. We recommend Pro-Bond or PVC Special Adhesive for PVC Laminates. These Laminates are easy to apply with the standard laminates system, normally with plastic Laminates uses are water based and solvent based adhesive. We do not recommend to use heat activated adhesive.

**Cutting and Machining :** Decolux PVC Laminate can be cut, router and drilled, with most standard. Wood working tools or equipments, all blades must be sharp, to remove any burs that may occur in the cutting process, we recommend the use of a smooth, file to feather all corner Edges.

**Lamination :** Proper substrates must be used and careful bonding procedures must be observed. Substrates should be of good quality plywood, high density particle board or high quality fibre board. The face of the substrate must be smooth and free of grease, wax, dust, chips and other foreign matter.

**Bending and forming :** Decolux PVC Laminate can be bent and all radius bending should be handled in the same manner as all grades of non post forming decorative Laminates.

**Uses :** When used on other type of horizontal surfaces they should be protected with glass or any other equivalent material. They can be used for kitchens, cabinetry, columns, ceiling, furniture, doors and also for commercial use wherever a modern contemporary look is desired.

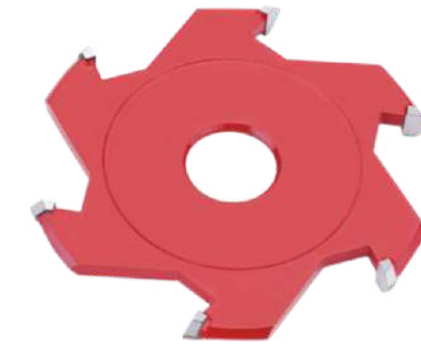

**Care and Maintenance :** Micro fiber clothes can be used for cleaning the surface after pre soaking. Surface should not be cleaned using a dry cloth. Any cleaning agent containing acids, alkalis or abrasive should not be used to clean the HIGH GLOSS PVC Flexible Sheet.

**KINDLY REMOVE THE PROTECTIVE FILM WITHIN 7 DAYS OF INSTALLATION OF LAMINATES.**

**100%**  
**COLOR CORE**  
**PVC LAMINATES**

The distinctive feature of Decolux Colour Core PVC Laminate is that it comes with a solid colour throughout the base. It is suitable for application on counters, desks exclusive range of colour core PVC laminates are available in numerous textures and colors. It is an innovation that brings colours to interiors without any dark areas.

## V-GROOVE RADIUS CUTTER

### Step 01

Cut your PVC Laminate sheet according to the size.

## 90° Bending Process in PVC Laminates

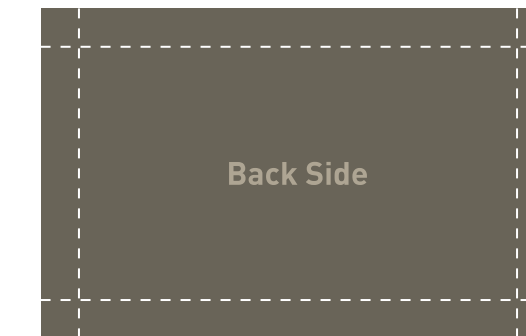

### Step 02

Check the size by placing the Plywood or WPC board on it.

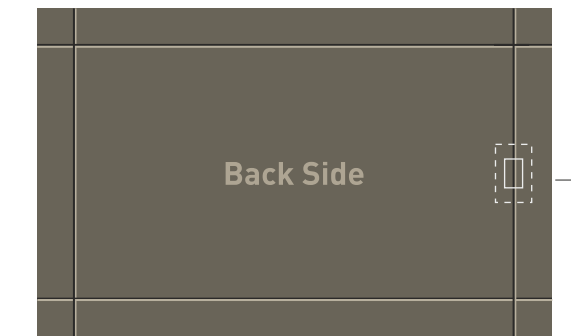

### Step 03

Make mark for V-Groove Cutting

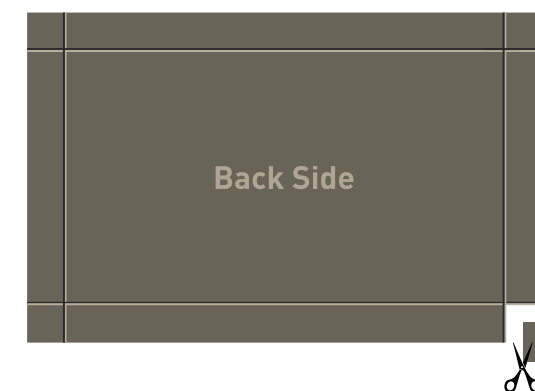

### Step 04

Make groove with V-groove cutter that are easily available in the market.

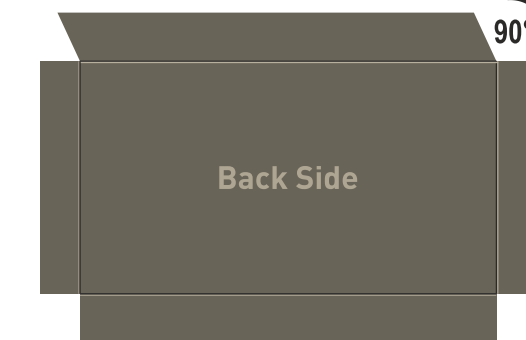

### Step 05

Now cut the corners with the help of a pair of scissors.

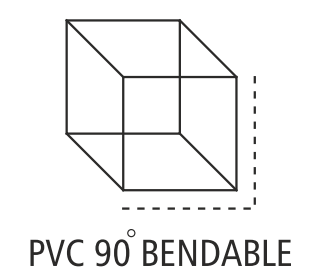

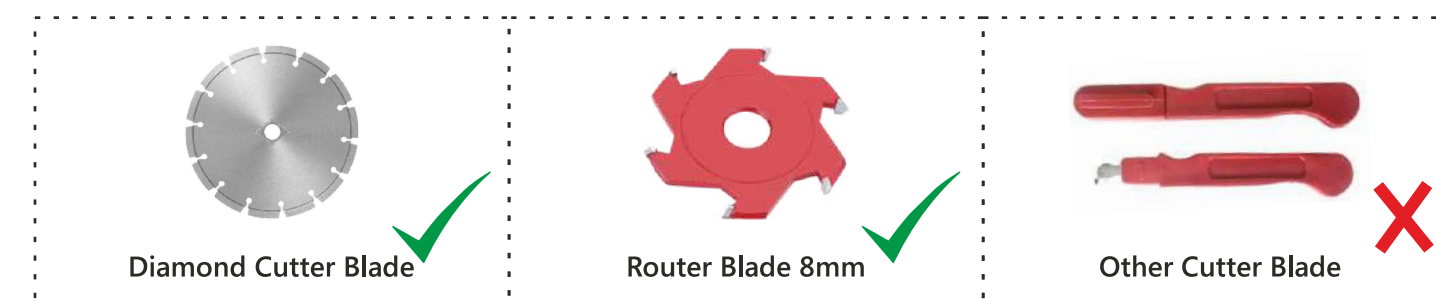

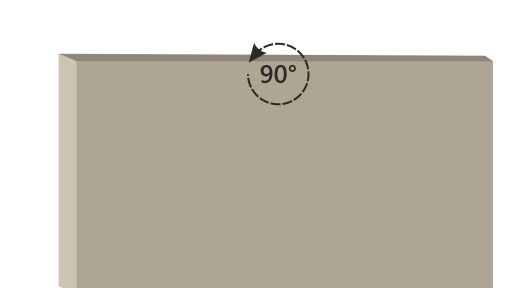

### Step 06

Carefully bend the PVC Laminate at 90° carefully with the V-Groove Mark.

### Step 07

Now stick it with Pro-Bond/PVC Adhesive on Plywood or WPC

Disclaimer : The Original Laminates may differ in colour of laminates shown in the catalogue/folder.
